

JOBS AT

Vertical is growing and we're looking for you!

Vertical Communications® is currently looking for qualified candidates for the following position.

Job Title: Software Engineer – Applications

Location: Suwanee, GA

Job Description

At Vertical, we build innovative communications software products for business of all sizes across many vertical industries including retail, automotive, healthcare and more. We are seeking an innovative, high-energy software engineer to join our Application Engineering Team to help design and build cloud-based applications for various industry vertical markets.

Primary Job Responsibilities

- Develop and support components of Vertical's cloud infrastructure.
 - Design, develop and support backend services, APIs, and end user web apps based on Vertical's micro-services based cloud application delivery platform called Vertical Cloud Connect (VCC).
 - Work as part of a team to enhance feature set of Vertical's multi-media (voice, video, IM) browser based UC application called ViewPoint Web.
 - Own and enhance all aspects (backend, APIs and front end) of Vertical's CRM integration product called CRMLink.
- Develop and support components of certain key infrastructure and desktop clients written in C# and .Net.

Qualifications

- Bachelor's degree in Computer Science, Engineering or related technical field.
- Motivated, high-energy, self-starter
- Solid software developer
 - 3+ years' experience delivering production applications and services
 - Strong problem solving and design skills
 - Good communication and interpersonal skills
 - Demonstrable experience with design and technical documentation
 - Proficient using version control - Git preferred
- Proficient/expert in Linux service development
 - Javascript (Expert)
 - Node.js (Knowledgeable)
- Proficient in Windows application/service development
 - C#
 - .NET
 - ASP.NET
 - Internet Information Services (IIS) (Knowledgeable)

Pluses

- Telephony experience - general, WebRTC, audio, video
- VMWare experience
- Cloud operation and development experience
 - Amazon Web Services
 - Google Cloud Platform
 - Microsoft Azure
- Google Cloud Platform operation and development experience
- Docker experience
- Mobile development - iOS and/or Android

About Us

Vertical delivers voice, mobile and collaboration solutions for how we work today. We are inspired by the always-connected, data-driven enterprise that embraces the new ways of working made possible with mobile and cloud technologies. We replace the traditional business phone system with a communications platform and secure cloud services that enable powerful new workflows to ensure you are always connected to your customers. Wherever. Whenever.

Interested? We want to hear from you! Please send your resume to hr@vertical.com.
